

Product catalogue

Cleaning systems for maximum
performance and profit

High-performance cleaning. Low total costs.

Welcome inside the Vileda Professional product catalogue! This is where you will find the products and solutions that satisfy your professional needs for cost-efficient, high-performance cleaning. But leading products are only part of the Vileda Professional offer.

Work with us, and we will also support you with intelligent, value-adding services that will sharpen your competitive edge.

"Listen and learn" is a mantra to us

We are the partner that listen more than we talk. We are the company that is constantly launching innovative and high-performance cleaning solutions for your professional business. So you can make sure that office workers feel comfortable, hospital patients get well, hotel guests enjoy their rooms and pharmaceuticals are produced without contamination.

Be sure we are the experts in cleaning

Since 1948 we have provided the cleaning industry all over the world with innovative and high-performance cleaning solutions that make a real difference.

We bring down bacteria levels and infection rates. We help to keep premises looking clean and attractive. We provide ergonomic tools that keep the cleaning staff healthy and personnel costs at bay.

All of this leads to a lower total cost-in-use.

Always change a winning concept

Every year we invest heavily in developing concepts and solutions that will strengthen your business position in the cleaning industry. Behind our products are all the advantages that make working with us a profitable choice for your business – research and development, materials selection and production methods, testing, testing and more testing.

Be sure we are constantly developing and changing our winning concepts, to become even better in developing the best solution for your particular needs.

Let's do business

The best credibility we get are success stories from our satisfied customers. When listening to our customers, these are some of the things we learned:

- ✓ Top contamination control
- ✓ Excellent bacteria pick-up, without need for chemicals
- ✓ Lower infection rate in hospitals
- ✓ Lower staff absentee rate
- ✓ Lower personnel costs
- ✓ Lower total cleaning costs

Explore the extensive product catalogue – and visit <https://export.vileda-professional.com> – and we will be more than happy to do business with you.

Wiping

Which properties do you need? High absorbency for wet surfaces? Absolutely streak-free, lint-free cleaning for glossy surfaces? Removal of grease and stubborn fingerprints in a single wipe – without chemicals? Which method suits your cleaning and hygiene tasks the best? Bucket method? Spray-cleaning system or pre-preparation of cloths? Vileda Professional's comprehensive range includes cloths for every need and every system, from economical semi-disposables to advanced microfibres.

Microfibre cloths

Nothing cleans deep like microfibrines. One wipe removes both grease and fingerprints, with no scrubbing or drying afterwards. How? The ultrafine microfibrines literally scrape and absorb dirt from the surface, leaving behind nothing but tiny water droplets. You save time and money, especially since you can do the job with a minimum of chemicals – or none at all.

PVA cloths

Unique damp cleaning cloths made from high quality PVA material. High absorbency properties for drying of wet surfaces. resistant to chemicals of leaches. Washable up to 60°C.

Sponge cloths

Vileda sponge cloths offer superior absorbency compared with traditional cloths, and can typically absorb up to 15 times their own weight in water. For use in all areas where absorbency and spill pick-up are essential, such as everyday wiping of kitchens, toilets and sanitary areas.

All purpose and semi-disposable cloths

Vileda's non-woven all-purpose cloths offer a range of functional properties. The Vileda cloth stays fresh longer, and the high fibre density results in capillary action, greatly improving absorbency. With our semi-disposable cloths we offer a cheaper alternative for the superior cleaning. Especially in hotel, restaurant or catering areas where hygiene and cleanness is needed. Semi-disposable cloths can be used as a disposable cloth in hygienic sensitive areas, but also be used as semi-disposable cloth, which can be washed several times.

Above the Floor Cleaning Tools

Trends in interior design are moving towards the use of glass, stainless steel, mirrors, tables, whiteboards and many other glossy finishes. These surfaces require specific solutions that traditional cleaning methods do not meet, resulting in poor results, increased cleaning time and costs.

Vileda Professionals interior solutions offer fast, efficient, safe and effective cleaning of these challenging interior surfaces and even high and inaccessible areas.

Microfibre cloths

Nothing cleans deep like microfibres. One wipe removes both grease and fingerprints, with no scrubbing or drying afterwards. How? The ultrafine microfibres literally scrape and absorb dirt from the surface, leaving behind nothing but tiny water droplets. You save time and money, especially since you can do the job with a minimum of chemicals – or none at all.

NanoTech micro

- ✓ Antibacterial cleaning cloth based on Microfibre Evolon technology.
- ✓ No mechanical drying required
- ✓ Designed with a combination of endless microfibre and nano silver particles
- ✓ 99.9% bacteria or germs removal when wiping surfaces (Certified by BMA)
- ✓ Antibacterial effect does not fade away when cloths are being washed
- ✓ Streak-free and lint free cleaning

Scouring

Many scourers look alike on the outside, but if you choose one from Vileda Professional you will quickly notice the difference in terms of both quality and the end result. Poor quality scourers wear quickly once the top layer of abrasive fibres wears down, you are left with a scourer that demands more time and effort to get things clean. In a Vileda Professional scourer, every fibre is coated with grit and resin, this penetration of abrasive throughout the structure ensures superb cleaning action throughout the lifetime of the scourer. The strong resin-to-fibre bond ensures even wear of both fibres and abrasives, resulting in consistently excellent cleaning performance. Additionally Vileda Professional scourers are manufactured from nylon which does not rust, splinter, clog with debris and are easy to rinse clean.

Scourers

Vileda "Heavy Duty" (Black Abrasive)

- High performance, black abrasive scourer with easy grip foam backing
- Suitable for the heaviest duty applications
- Foam backing protects fingers and keeps the scourer flat for maximum contact with the cleaning surface

Art.no. Case TSU	Description	Size in cm	Pieces/pack	Packs/case	Art.no. Pack BCU	Application
101885	Vileda "Heavy Duty"	7 x 15	10	10	102565	

Vileda "Strong" (Green Abrasive)

- High performance, high quality abrasive scourer with easy grip foam backing
- Ideal for general washing-up and mark removal
- Foam backing protects fingers and keeps the scourer flat for maximum contact with the cleaning surface

PUR Active

Effect of PurActive wave-shape

PurActives special coating easily lifts stubborn grime whilst being gentle on all hard surfaces. It cleans three times more effectively than traditional non-scratch scourers and is more gentle on surfaces than a traditional abrasive scourer.

Instead of scratching the dirt away like a traditional scourer, the special wave shaped surface structure lifts the dirt from the surface without scratching resulting in time savings through faster more powerful cleaning.

PURActive

- Easily lifts grease and grime
- Gentle on all hard surfaces
- Fits comfortably in your hand
- Colour coded to help prevent cross contamination

Miraclean

Tired of pen-marked table tops, scuff-marked floors, limy washbasins, dirty white-boards, greasy sinks, finger printed walls, and ground-in dirt in general?

Miraclean is the solution to all these problem areas. With a minimum of effort and using only water, it will instantly take away marks that used to be a problem. No need for aggressive chemicals, no need to struggle and sweat over annoying marks anymore, just dampen Miraclean in water and rub the mark away.

Miraclean (Stain Eraser)

- ✓ Strong cleaning performance with a minimum of effort
- ✓ Works with water only, no chemicals needed
- ✓ About 26 times more effective than other methods or products, saves time and money

Gloves

Chemical or mechanical hazards, heavy-duty cleaning, microbiological hazards, and foodstuff handling – the directives for Personal Protective Equipment (PPE) are clear: employees have to provide their staff with appropriate protection against hazards.

Vileda Professional gloves are the answer to the various needs to meet the different professional cleaning needs as well as the legal requirements. Vileda Professional offers a complete range of protective and comfortable gloves, each suitable for its respective professional task.

To optimize glove economy – as a part of your total cleaning costs – be sure to select the right glove for the job. As each glove has its top protection focus it's easy to select the most suitable one, and thereby investing in exactly the right performance you expect from the glove.

Labeling symbols

Symbol	Pictogram meaning	Information
	Mechanical Risks The glove has a mechanical protection tested acc. to EN 388 Test result is a 4 digit code a b c d with values from 0 to 4 or 5 (0 = low, 4/5 = high, X = not tested)	a = Abrasion resistance 0 to 4 b = Blade cut resistance 0 to 5 c = Tear resistance 0 to 4 d = Puncture resistance 0 to 5 e = TDM ISO EN 13997 cut resistance (performance levels a to f)
	Chemical resistant The glove is chemical resistant acc. to EN 374 Test is performed against a chemical list of 18 standard chemicals	Type A = chemical breakthrough time > 30 minutes against at least 6 chemicals from the list Type B = chemical breakthrough time > 30 minutes against at least 3 chemicals from the list Type C = chemical breakthrough time > 10 minutes against at least one test chemical from the list Please check table "Chemical Recommendation" in catalogue or ask for technical support! Vileda Professional gloves are sufficient to and protect against diluted common cleaning agents. Water/Air-leak tested (AQL ≤ 1,5)
	Protection from Microorganisms The glove has a bacteria and fungi protection tested acc. to EN ISO 374	
	Glass and fork symbol The glove is suitable for food contact

How to use gloves

1 Before putting on gloves

Clean and dry your hands thoroughly before putting on gloves.

2 How to put on gloves

Please turn the cuffs in order to prevent liquids to flow into the glove.

3 Usage duration

Do not use one pair of gloves for too long: please check the chemical recommendation alternate between 2-3 pairs if long time use is required.

4 Clean gloves after usage

Please clean the gloves before taking them off: after contact with acid or alkaline chemicals please wash off with water and dry afterwards after contact with solvents please rub them down.

5 How to take off gloves

Please do not touch the outer side of the gloves while taking them off: avoid contact to chemicals / bacteria.

6 How to store used gloves

Take care that the used gloves dry properly until next use by e.g.: putting the gloves on a gloves rack hanging the gloves on a (clothes) line.

7 Hand care after usage

After taking off the gloves, please wash your hands and use a suitable hand cream.

8 Do not reuse damaged gloves

Please use only gloves which do not have any damages like holes or tears.

Wrapmaster

Wrapmaster

The Wrapmaster is the ideal professional system for protection and preservation of perishable food. It's easy and fast to use everywhere: in canteens, kitchens, catering. Wrapmaster dispensers have been found to give savings of up to 35% through reduced waste and increased performance. The system is very hygienic, as cling film and foil rolls are protected against cross contamination by the easy to clean, robust ABS casing.

Wrapmaster Dispenser

- ✓ Perfect cut every time – effortless dispensing of film, foil and baking parchment
 - ✓ Safe to use – concealed blade for safe cutting, no more cuts from cutter box blades
 - ✓ Hygienic – easy to clean and sanitise, reduces the risk of cross-contamination.
- Recommendation by food safety practitioners
- ✓ Dishwasher Safe – easily disinfected in a commercial dishwasher
 - ✓ Saves time & money – reduces wastage and increases productivity with a proven 20 % cost in use saving vs. cardboard cutter box

Floor Cleaning

Floor Cleaning

As all sites differ in size, floor coverings, volume of traffic, hygiene, health and safety requirements one floor cleaning system is not sufficient to meet all needs. That is why Vileda Professional has a comprehensive range of solutions from the standard leading Swep Pre-prepared system, through to the UltraSpeed Pro, CombiSpeed Pro, UltraSpeed Mini and SuperMop. By choosing the correct system for your requirements, you can achieve better performance, ergonomics and lower your overall total cost-in-use.

Swep Pre-Prepared Flat Mop System

The Swep system was launched over 40 years ago and became an immediate floor cleaning favourite. As the first pre-prepared system on the market, Swep system not only set new standards in the cleaning business but has continued to innovate year on year. With a choice of three Mop types (MicroTech, MicroCombi and MicroPlus and 3 widths (35 cm, 50 cm, 75 cm) you benefit from the best solution for effective daily cleaning. Plus by being double sided Swep Duo Mops let you clean twice the area by just flipping the frame and keep mopping.

UltraSpeed Pro Flat Mop System

Ultra Speed Pro is the most up to date, best performing flat Mop Bucket and press system on the market. It is so easy to use, needs no training and is adaptable to suit all sites. Start with the single Bucketsystem for general floor cleaning or add a second Bucket onto the chassis and you have a double Bucketsystem for mopping larger areas. If you want to fulfil more cleaning tasks, you can use the second Bucket to carry chemicals, cloths, paper etc. Whatever the cleaning requirements, UltraSpeed Pro will dramatically raise your standards in speed, performance/costs, versatility and ergonomics.

CombiSpeed Pro System

The CombiSpeed Pro system includes a wide assortment of pocket and strip Mops for use in a variety of applications. From the high performance of Trio and MicroSpeed Plus to the economy of Contract and MicroLite we have a Mop that meets your requirements in terms of application, performance or budgets. Each Mop type is available in 40 cm and 50 cm sizes in both pocket and pocket/strip attachments and fit all commercially frames. Additional features also include barcode labels and colour coding tags as standard.

Express (Hook and Loop) Flat Mops

Comprehensive range of hook and loop Mops for use with a variety of systems and methods including pre-prepared, spray and dust control.

SprayPro Inox Spray Mopping System

SprayPro Inox is the professional, ready-to-use floor cleaning system containing all you need for Bucketfree mopping. Just fill the handle with water and you have everything you need to clean hard flooring and staircases in one easy-to-use unit. Designed to work with all Vileda Professional mopping systems it easily adapts to your needs, whatever the cleaning task or on-site conditions.

Vertical mopping systems

A traditional system in the wet mopping is still the vertical Mop assortment. Vileda Professional offers a range which fits all needs, from the innovative UltraSpin Mini to a small and flexible system with several Mop materials in the SuperMop range to a traditional Kentucky Mop system up to a Twist Mop which could be used without any press.

Floor Cloths

High performance durable and single use floor cloths featuring the quality and performance you expect from Vileda Professional. For use with your choice of squeegees or scrubbers on all hard floors.

Dustmopping

The disposable dustmop range comprises a range of viscose and polypropylene non-woven Mops that contain a special permanent oil impregnation treatment that retains its effectiveness even after storing for long periods. The durable dustMops are designed for fast removal of loose dust and dirt as part of daily maintenance or preliminary cleaning. When used as part of a maintenance system dustmopping acts as an intermediate cleaning step to reduce the frequency of wet or damp mopping.

Floorpads

Superpads are designed to last longer, do the job faster, prolong the life of floor coatings and protect your investment in floorcare machinery. Available in a range of grades and sizes for all motor speeds.

Edging Tools & Pads are designed to simplify cleaning, maintenance, restoring and manual spot-cleaning processes. For use in areas inaccessible to machines including corners, walls, floor edges and staircases.

Sweep System

More than 40 years of success is not a coincidence. When Sweep was launched, it became an immediate floor cleaning favourite. Being the first pre-prepared system on the market, the Sweep system swept the floor with the competitors and set new standards in the cleaning business. Now the new Sweep generation or core and specialist application ranges are here – with even better performance, ergonomics and lower total cost-in-use.

The Core Range – Sweep Duo

By being double sided Sweep Duo Mops let you clean twice the area by just flipping the frame and keep mopping. Plus you only need to purchase and to launder half the number of Mops – meaning lower investments and lower usage of water, chemicals and electricity.

Sweep Duo Plus Mop Frame

- ✓ Sweep Duo Plus Frame with built in lever for hands free removal of dirty and/or contaminated mops

Swep Single System

Duo Mops offer the best cost in use through laundry, dosing and preparation time. But there are some areas that are too small to benefit from the second side. E.g. patient rooms often measure around 20 m². To fulfil these requirements the Mops in the core range are available as 50 cm Single sided Mops.

Swep Single MicroTech Mop

- ✓ Low friction, microfibre cleaning performance

UltraSpeed Pro System

Ultra Speed Pro is the most up to date, best performing flat Mop Bucket and press system on the market. It is so easy to use, needs no training and is adaptable to suit all sites. Start with the single Bucket system for general floor cleaning or add a second bucket onto the chassis and you have a double Bucket system for mopping larger areas. If you want to fulfil more cleaning tasks you can use the second Bucket to carry chemicals, cloths, paper etc. Whatever the cleaning requirements are, UltraSpeed Pro will dramatically raise your standards in speed, performance/costs, versatility and ergonomics.

UltraSpeed Pro Single Bucket

Vertical mopping systems

A traditional system in the wet mopping is still the vertical Mopassortment. Vileda Professional offers a range which fits to all needs, from the innovative UltraSpin Mini to a small and flexible system with several Mopmaterials in the SuperMoprange to a traditional Kentucky Mopsystem up to a Twist Mop which could be used without any press.

UltraSpin Mini

UltraSpin Mini is a simple to use compact system that combines a revolutionary spinning press with a 100% microfibre Mop head. The results are effective cleaning in less time, at lower cost and with less strain for the user.

- ✓ Microfibre Mop head
- ✓ Ergonomic, no bending
- ✓ Fast spill pick up
- ✓ Wide 30cm floor coverage
- ✓ Splash guard ensures no water spills
- ✓ Triangular head, easy corner cleaning
- ✓ Ready-to-Go sets contains one Bucket with spin press, one Mop head and one telescopic handle

Floorpads

Superpads are designed to last longer, do the job faster, prolong the life of floor coatings and protect your investment in floor-care machinery. Available in a range of grades and sizes for all motor speeds.

- Improved machine stability means less stress on machine motors and easier handling for operators
- Even wear across pad surface without "roll-back" of fibres
- Abrasive penetrates through the whole thickness of the pad for a longer effective life
- Floorpads inner diameter 85 mm

Superpad black

- Highly abrasive stripping pad
- For wet stripping and removing of coating and sealing
- Pad to be used on non-delicate floors
- Durable by high chemical resistance

Brushware

Brushware

Constructed from easy-to-clean high grade plastic and synthetic filaments, Vileda's hygienic brooms are designed for outlast and outperform ordinary brooms. The Superior brushware range offers best in class hygiene in use. The abrasion resistant bristles consist of Polyester PBT-filaments with excellent bend recovery and sweeping performance as well as a high resistance to a wide range of chemicals, oils, organic solvents and detergents. The strong Polypropylene plastic material withstands heavy use. Its smooth finish helps to prevent soil clinging to the surface. Stainless-steel staples fix the tufts and ensure longlasting rust-free hygiene. The Superior broom- and brushware range is heat resistant and can be autoclaved up to 134 °C for optimal hygiene.

Superior Broom soft/hard

- Effective floor sweeping with high quality Polyester PBT-filaments. Soft and hard bristles available
- PBT-bristles offering excellent bend recovery and high resistance against a wide range of chemicals
- Durable Polypropylene material with easy to clean surface and pin hole
- Stainless steel staples ensure long-lasting, rust-free hygiene
- Autoclavable up to 134 °C
- Universal screw-thread for German and Italian thread. Recommended handle TSU 111533

iQonnect ...

... enables you to better manage the operations of your cleaning workforce. Managers, supervisors and cleaners are able to do more in less time. Contract cleaners get all their documents and forms easily digitalized. Offer more transparency to your clients via real-time reports and dash-boards. Save up to 15 % of your managerial costs.

This is the opportunity to connect your managers, supervisors and cleaners. Have all information at a glance – the iQonnect core functions of our basic package* get you jump started with digitalization.

Time & Attendance Registration

Completely replace offline time registration by digital solutions.

- From NFC/RFID, over pin code to GPS, various options are available – depending on your demands
- Real-time monitoring and reporting of working hours

Staff / ID Management

Store all cleaner files on legal status and give access to entitled personnel.

- Custom HR information – available at any time
- Digitalize personnel-ID assignment to the site where they work
- ID validity check and access

Paperless Work

Replace paper-based documents and forms and store all relevant documents digitally.

- Keep your documents always up-to-date
- 24/7 access to any document
- Form-builder to create any digital document
- Automatic (client-)report generator (fill in data once)

Complaint Management

React faster to complaints for superior customer satisfaction.

- Customers generate complaints via online portal or app
- Status monitoring via complaint overview
- Task creator for quick complaint resolution

Task Management

Plan, organize, schedule and keep track of all your activities.

- Detailed working-plans with daily and periodical tasks
- Real-time insights in task completion via activity feed and reports
- 24/7 task creation and assignment to the cleaner on the job

Quality Management

Constantly improve your performance by systematic quality checks.

- Daily and periodical quality checks made easy
- Pre-defined quality management forms following EN 13549
- Easy adaption to your existing processes or customer demands

Reporting

Provide transparency and save time with automatically generated, pre-defined reports.

- Reports can be created on almost any data stored
- Meet customer expectation on reporting needs
- Share information based on individual access rights
- Dashboard function for quick overview KPIs

* Not all functions are part of the basic package or available in all countries.

Trolleys

The new Origo 2 sets a new benchmark among cleaning trolleys. Offering improved hygiene, higher efficiency, greater safety for users and sites as well as full integration of tablets and digitally aided cleaning devices. Push button opening lids, storage for multiple tools, separable satellite trolleys and a unique in-lid tablet / pad storage solution allowing users to see and respond to push messages are just a few of the innovative features on offer. The new Origo 2 further expands the existing VoleoPro and Origo trolley ranges.

OriGO SAFER

OriGO CLEANER

OriGO FASTER

OriGO SMARTER

OriGO GREENER

OriGO FLEXIBLE

The new Origo 2

Today, trolley systems are expected to do more than carry cleaning products and tools. Origo 2 rises to meet this challenge with new innovative features and seamless digital integration – all designed to offer you greater safety and connectivity, improved hygiene and higher efficiency. In short: perfect, validated cleaning results.

Meet the new Origo 2.

OriGO FURTHER

Efficiency

Intuitive, faster cleaning.

- ✓ Satellite trolleys: waste, pre-prepared or Bucket & press
- ✓ New mop and storage boxes, compatible with all preprepared mops and equipment
- ✓ Divider allows dosing of a full or half box of mops to save chemicals and laundry
- ✓ Vertical tool storage for up to four mops of any width (25 cm to 75 cm)

Hygiene

Cleaner operational and process management.

- ✓ Hands-free Lid opening for safe, clean operation
- ✓ Clearly defined sections keep waste well away from clean and used materials
- ✓ Protective lids on all buckets, boxes and trays keep contents clean
- ✓ Full colour coding of all elements
- ✓ Optionally split waste and used materials into 1, 2 or 3 sections

Security

Innovative design increases safety and peace of mind.

- ✓ Secure your cleaning products and protect your clients' premises
- ✓ Lockable doors and top lids prevent unauthorised access to contents
- ✓ Hidden safety compartment for employees' personal items
- ✓ Soft-touch bumpers: no scuff marks and less damage to walls
- ✓ Foldable waste/used extension: even easier to store after use

Connectivity

Seamless integration of cleaning tools and digitally connected devices.

- ✔ Supports tablets, RFID tracking etc.
- ✔ World's first trolley featuring an in-Lid tablet holder
- ✔ See and respond to push notifications directly, without opening or lifting the lid
- ✔ Compatible with any tablet and workforce management software
- ✔ Secure, fully lockable tablet storage to prevent theft

Sustainability

Taking responsibility for our environment.

- ✔ Bucket and box range made from 50% recycled plastic meets international guidelines
- ✔ All elements of the trolley suitable for post-use recycling
- ✔ Recycled Bucket and box range are black making them easy to identify
- ✔ Innovative logistics reduce CO₂ emissions from transportation

Customisation

Because every space, task and employee is unique.

- ✔ All buckets, boxes and trays can be positioned anywhere
- ✔ Smart, integrated rail system with multiple height options for storage
- ✔ Seven different trolley types, each configurable to your specific requirements
- ✔ Compatible with all pre-prepared, Bucket & press and waste systems

OriGO FLEXIBLE

AX

Our most compact trolley, designed for sites with limited storage after use.

- ✓ Foldable waste section
- ✓ Multi-height push bar
- ✓ Vertical mop Frame holder (fits up to 5 tools/frames)
- ✓ One multi-height inner rail storage section for boxes, trays and surrounds
- ✓ Can be fully enclosed, with lockable doors and push-button top lids
- ✓ Designed for all pre-prepared cleaning systems

C

Compact and agile, but with room to store all daily cleaning elements.

- ✓ Two multi-height internal rail sections for boxes, trays and surrounds
- ✓ Can be fully enclosed, with lockable doors and push-button top lids
- ✓ Multi-height push bar
- ✓ Vertical mop Frame holder (fits up to 5 tools/frames)
- ✓ Up to 6 buckets fit on top section
- ✓ Designed for pre-prepared cleaning systems

CX and CXL

The versatile solution, combining generous storage plus fold-down waste.

- ✓ All the benefits of a C but with additional fold down waste section
- ✓ Three separate compartments (e. g. clean, waste and used products)
- ✓ Designed for pre-prepared cleaning systems
- ✓ Can be fully enclosed, with lockable doors and push-button top lids

**CONFIGURE YOUR OWN CLEANING TROLLEY AT:
WWW.MYORIGO2.COM**

C-A

Featuring a handy satellite for transporting products to and from laundry.

- ✓ Three separate compartments (e. g. clean, waste and used products)
- ✓ Foot pedal release on A satellite
- ✓ Three multi-height internal rail sections for boxes, trays and surrounds
- ✓ Vertical mop Frame holders on both sections (fit up to 10 tools/frames)
- ✓ Can be fully enclosed, with lockable doors and push-button top lids
- ✓ Designed for pre-prepared cleaning systems

C-C

Featuring a bigger satellite for large sites or high volumes of waste.

- ✓ Clear split of functionality (one C for cleaning, one C for used products or waste)
- ✓ Four multi-height internal rail sections for boxes, trays and surrounds
- ✓ Vertical mop Frame holders on both sections (fit up to 10 tools/frames)
- ✓ Can be fully enclosed, with lockable doors and push-button top lids
- ✓ Designed for all pre-prepared cleaning systems or waste removal

C-B

Storage, waste plus a Bucket & Press satellite for faster mopping results.

- ✓ Two multi-height internal rail sections for boxes, trays and surrounds
- ✓ Can be fully enclosed, with lockable doors and push-button top lids
- ✓ Satellite B section works with all single and double Bucket flat and vertical mops
- ✓ Multi-height push bar on C section and compact push bar on satellite
- ✓ Vertical mop Frame holder (fits up to 5 tools/frames)
- ✓ Can also be used for pre-prepared mop box transportation

A-B

Compact and versatile Bucket & press satellite for sites with limited storage.

- ✓ All the benefits of the C-B but, with only one multi-height internal rail section
- ✓ Can be fully enclosed, with lockable doors and push-button top lids
- ✓ Satellite B section works with all single and double Bucket flat and vertical mops

Mop Boxes

- For pre-preparation of all flat mop types
- Easy carry handles
- Colour coding clips available
- For use in inner rail sections and top plate
- Recycled option available (black colour)

Origo Line

Origo means "centre", the centre of your cleaning system for every cleaning task and the carrier of all your cleaning equipment. New contracts, new demands, new methods, new staff. If there is one thing certain about cleaning in the future it's that there will be changes. With this in mind, we created the Origo Line. You can either choose one of our standard configurations or have your trolley customised exactly to your requirements. And when your requirements change – customise it again!

There are 3 steps to choose your perfect solution

Step 1: Choose your series

100 Series

Plastic base plate. Non configurable.

300 Series

Plastic base plate. Fully configurable.

500 Series

Durable metal frame. Fully configurable.

Step 2: Choose your layout

F: Large base with working station

F+X: X: Extension for Bin bag

H: Short base

H+X

H+H+X

Step 3: Choose your mopping system and accessories

UltraSpeed Pro single and double Bucket press method

Single and double bucket vertical press method

Swep Duo double bucket vertical press method

Pre-Prepared flat mopping method

VoleoPro configuration examples

Matting

By using an effective entrance system that traps heavy dirt, cleaning is easier, less expensive and last but not least, more ergonomic and lighter for the cleaning staff.

Let the mats do the hard work! It is a well-known phenomenon that 80 % of dirt comes in through the front door. And it is even worse when the weather is bad. The less dirt that comes in from the outside, the easier the cleaning. We therefore regard mats as a natural and important part of our cleaning system.

Effective cleaning in three simple steps! 1+2+3

Modern cleaning is much more than single products and methods. It's about taking a total view of the object that needs to be cleaned. That's why we see matting solutions as a rest important step in the cleaning process.

1

1. Stop the dirt at the entrance
Dirt that does not get in does not have to be cleaned out.

2

2. Clean the interior fast and easy
When the dirt is inside you have to take care of it in the best way. Vileda Professional has a wide assortment of high quality cloths, scourers and also interior mops.

3

3. Last but not least the floor
We have solutions to suit your needs: mops, squeegees, brushes and floor pads.

Waste Management

You take pride in offering a clean and inviting environment for your customers. You understand how important your premises are as a competition factor in your business as well as a vital part of your image. Then you also realise that waste management is an important part of your overall cleaning strategies. So do we, and that's why we offer you complete solutions for keeping your premises attractive – from cleaning systems to our waste management range.

Top class cleaning requires top class waste management

Market leaders by listening

Vileda Professional is market leader in developing and manufacturing cost effective cleaning solutions. We have reached our position by listening to cleaning professionals, understanding their needs and creating innovative solutions to fulfil them. By taking this philosophy into waste management, we are able to offer a range of products that are ahead of traditional solutions. Like the innovative “combined materials” metallic recycling and waste bins, HACCP “hands free” complying pedal bins, multi-purpose durable bins and wheeled 100l containers.

Designed for designed environments

Vileda Professional’s waste management range is designed to meet the challenge contemporary buildings and interiors place upon the products used inside them. The Iris and Geo metallic bins are perfect examples of how Vileda Professional is meeting the design challenge head on.

Both ranges utilise the latest “combined materials” technology, merging the durability and performance of plastic with the aesthetics and image of stainless steel for internal use. The result is a bin for internal use, that is easy to clean, fingerprint, rust and dent proof – plus looks at home in even the latest state-of-the-art interiors.

Benefit from world famous Swiss Quality

Forget that beauty is only skin deep – Vileda Professional products go much deeper than that.

The quality and durability you expect from a Vileda Professional product, is evident with the Geo, Iris, Leto, Hera, Atlas and Titan bins. They are manufactured in a ISO 9001 certified production plant in Switzerland – and we all know about Swiss Quality.

So of course all items carry a one-year warranty covering problems related to materials, construction or manufacture.

Geo Metallic – waste separation and recycling

reddot design award
winner 2012

The innovative and durable Geo bin range is the centre of your waste collection and recycling separation system.

- ✓ Durable plastic construction with metallic finish
- ✓ Compact slim line design – fits into the tightest spaces
- ✓ Rust, dent and fingerprint proof
- ✓ Easy to clean and washable
- ✓ Integrated handle – for easy carrying and lifting
- ✓ Integrated bag holder – ensures the correct fit of your waste bag
- ✓ Anti-slip rubber feet – avoids movement in use and protects flooring
- ✓ 2 sizes – 55l and 70l
- ✓ 3 lid options – handle, paper, cans with colour coding or open lid with wall mounting tool
- ✓ Corresponds to combustion class K1 or F1. Tested according to DIN 53438-1:1984-06

Optional wall mounting kit:

- ✓ Ideal for use in washrooms and areas where cleaning under the bin is required
- ✓ Secure, snug fit against walls
- ✓ Bin can be removed for cleaning and emptying if required

Titan – heavy-duty durable bins

Titan is a range of multi-purpose, heavy-duty durable bins, developed for both outdoor and indoor use. Titan bins and lids are easy to clean and come with a range of innovative features.

- ✓ Soft grip handles – for comfortable lifting when full
- ✓ Heavy duty lid – with channels to increase water run off
- ✓ Easy to clean and wash
- ✓ Integrated bottom handles – for easy lifting and emptying
- ✓ Special bin structure to help removal of heavy waste bags
- ✓ Standard lid
- ✓ 2 sizes – 85l and 120l
- ✓ 2 colours – black and grey
- ✓ Certified food proof colour – white

Dolly for Titan (85l and 120l)

- ✓ Heavy Duty Wheeled Dolly for transporting both the 85l and 120l titan bins
- ✓ Heavy duty, suitable for use with loads of up to 100 kg
- ✓ 4 heavy duty swivel castors, suitable for indoor and outdoor use
- ✓ Brake on one castor to secure and stop movement of the bin in use

Hera – HACCP complying pedal bins

The Hera range of pedal bins comply with HACCP recommendations for hands free operation, making them ideal for use in a variety of applications – from healthcare patient rooms through to food preparation areas where it is crucial to avoid cross contamination.

- ✓ Slow closing lid – ideal for quiet environments
- ✓ Hands Free Operation – complies with HACCP recommendations
- ✓ Large pedal – ideal for use with safety shoes in professional environments
- ✓ Overlapping lid design – keeps odours inside
- ✓ Integrated bag holder – ensures the correct fit of your waste bag
- ✓ Smooth design – easy to clean
- ✓ Anti-slip rubber bumpers – avoids movement in use and protects flooring
- ✓ 3 sizes – 35l, 60l and 85l
- ✓ 6 colours – Red, Blue, Yellow, Black, Beige and White
- ✓ Self-extinguishing properties certified by TÜV Rheinland

Cleanroom Cleaning

Effective cleaning and full contamination control are key to profitable production of pharmaceuticals, medical devices and delicate microelectronics. Vileda Professional works to optimise cleaning in controlled environments offering functional and autoclavable utensils. Vileda Professional is a competent partner with knowledge to help in almost all situations with the right solution and support.

Cleanroom Wipes

EvoControl is based on Evolon® – a patented fully inline production process. EvoControl® is the next generation microfibre cloth manufactured from endless microfibres measuring 0.15 dtex (10 times finer than standard Polyester microfibres). The unique fabric combines very good textile and mechanical properties.

EvoControl

EvoControl 200

Disposable precision cleaning wipe

- ✓ Designed for fine wiping
- ✓ Laser cut wipe for areas where moderate contamination control is required

EvoControl 400

Disposable liquid cleaning wipe

- ✓ Designed for contamination removal
- ✓ Pre-laundered, laser cut and designed for the removal of acids and chemical spills

EvoControl 500+

Contamination collector & residue remover

- ✓ Designed for multiple use
- ✓ Pre-laundered, laser-cut durable wipe
- ✓ Point Sealed wipe enables microporeus cleaning to improve validation SOP's
- ✓ Semi- Disposable can be washed and sterilised up to 20 cycles

Controlled Environment Trolleys

The CE Trolley range has been specifically designed and developed for use in controlled environments where maximum contamination control is needed. The trolleys are electro-polished stainless steel with air tight connections and smooth weldings. This ensures excellent biological control while being easy to clean and fully autoclavable. The trolleys are extremely functional and versatile with superior ergonomics. Both trolleys offer ample space for all utensils needed for effective cleaning and are fully customizable to meet your exact needs. The range is completed by CE Bucket Dollies to work in cleanrooms where space for storing cleaning equipment is limited.

CE Pre-Prepared Trolley

- ✓ Suitable for cleaning with prepared cleaning textiles
- ✓ Small and compact
- ✓ Heat- and chemical resistant
- ✓ Wheel center is electric conductive
- ✓ Wheel tread is made of hydrolysis resistant material
- ✓ Suitable for autoclave and gamma sterilization
- ✓ ISO 5 / GMP A+B / FED209 D class 100
- ✓ Version 149775 for stainless steel bucket (149779) and pre-prepared box (149777)
- ✓ Version 143775 for plastic bucket (120943) and pre-prepared box (120806)

Floorcleaning

The less time you spend on cleanroom cleaning, the less you interfere with keeping the core business running. The Vileda Professional mop concept is the perfect answer to meet the high demands for effective cleaning and disinfection of cleanrooms and controlled environments.

The mops allow you to achieve your contact time requirements for common disinfectants, and still reach an excellent cleaning performance with up to 99.99 % bacteria removal.

MicroControl CE Mop

- ✓ 100 % microfibre mop surface offering high cleaning performance
- ✓ The patented edge cleaning lip design allows for effective cleaning of corners, skirt boards etc.
- ✓ Straight and clean design with no dirt traps
- ✓ Multilayer design with sealed edges for high absorbency, low particle shedding and top stability
- ✓ Ergonomic performance and high efficiency due to the Vileda pre-prepared method
- ✓ Swep mopping system – One cleaning tool for floors, walls and ceilings
- ✓ Excellent microfibre cleaning results have been independently proven bacteria reduction of 99.9%
